“Key to achieving a program that is efficient, effective and sustainable, is creating a seamless, intuitive user experience for the patient and provider, and that’s what our integration with Epic accomplishes.”

Michael Moore, Chief Product Officer

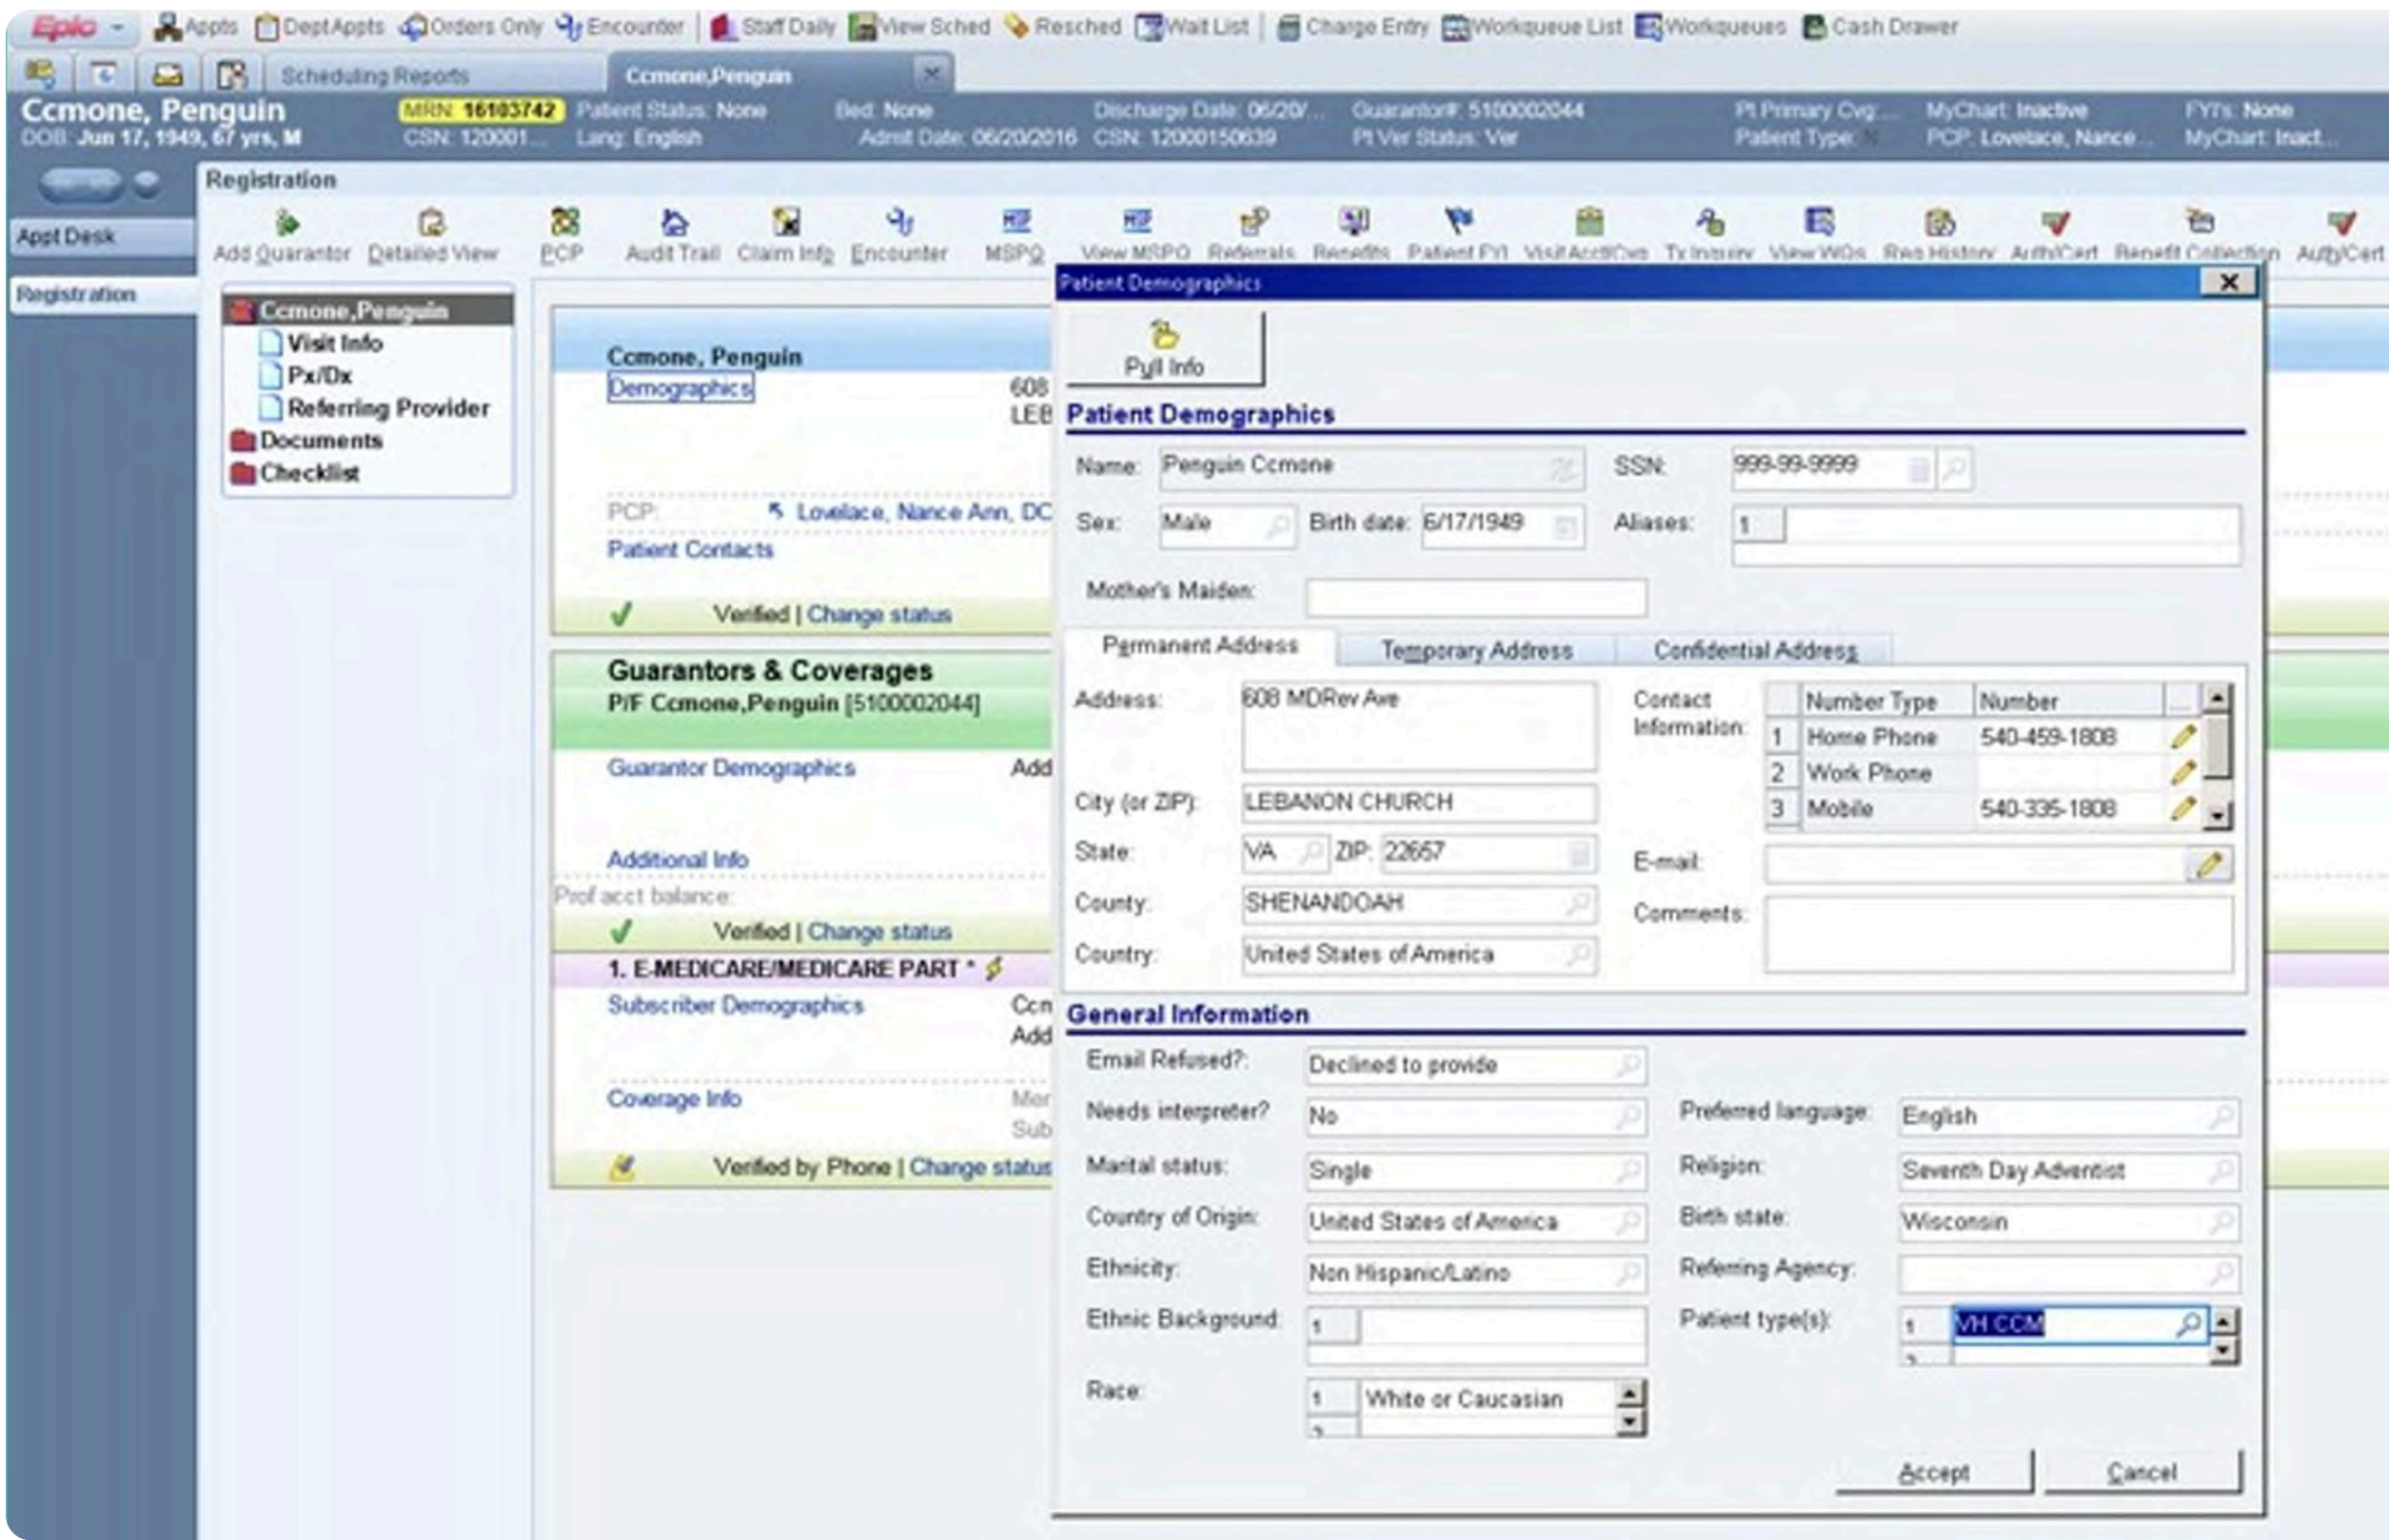

Epic users have access to the uniquely comprehensive features of RevCare’s remote care programs:

- ✓ Telephonic patient enrollment
- ✓ Dedicated team of health coaches
- ✓ Cellular connected devices
- ✓ Automatic claims creation

RevCare allows programs to get off the ground seamlessly with faster reimbursements – all while living in the Epic environment.

Integrated Ordering and Enrollment

Through the fully-integrated RevCare platform, the MD Revolution team enrolls qualified Medicare patients for the practice, prompted by enrollment flags and trigger ordering. Practices can see enrollment status real-time in the existing clinical workflow, and patients begin receiving CCM and RPM services in less than 5 days.
