

Connected, actionable data and true Epic integration

RevUp leverages built-in Epic workflows that allow practices to enroll and monitor their remote or chronic care patients efficiently without having to learn new systems.

Integrated Enrollment	✓
Exchange of Health History	✓
Integrated Vitals Reports	✓
Compliance Documentation/Integrated Care Summary	✓
Automated Claim Generation	✓

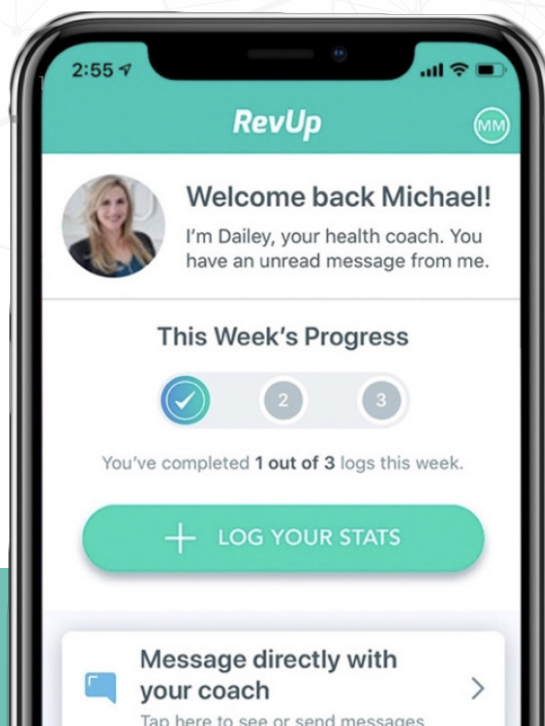

Key to achieving a program that is efficient, effective and sustainable, is creating a seamless, intuitive user experience for the patient and provider, and that's what our integration with Epic accomplishes.

Michael Moore, VP of Product 

Epic users have access to the uniquely comprehensive features of RevUp's remote care programs:

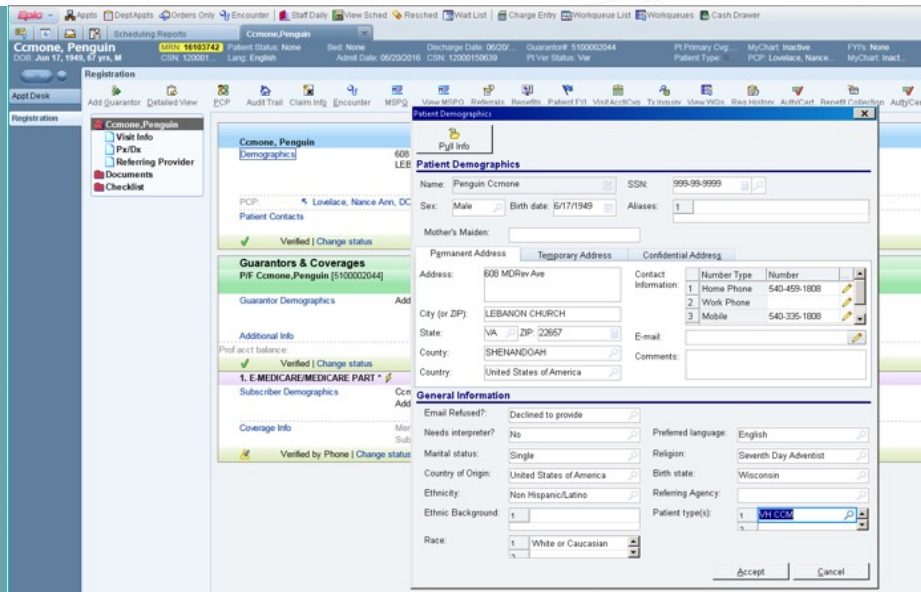

- Telephonic patient enrollment
- Dedicated team of health coaches
- Cellular connected devices
- Automatic claims creation

RevUp allows programs to get off the ground seamlessly with faster reimbursements – all while living in the Epic environment.

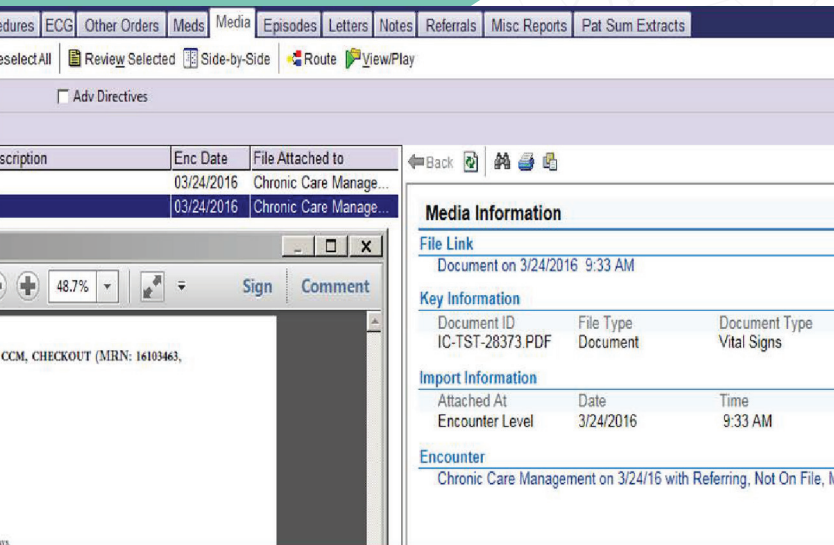

Integrated Ordering and Enrollment

Through the fully-integrated RevUp platform, the MD Revolution team enrolls qualified Medicare patients for the practice, prompted by enrollment flags and trigger ordering. Practices can see enrollment status real-time in the existing clinical workflow, and patients begin receiving CCM and RPM services in less than 5 days.

Integrated Documents and Claims

RevUp is the only care management app integrated with Epic providing automated claims creation via the RevUp billing engine, eliminating the manual claim creation step for each patient, every month.
