Revup + Azalea HEALTH

Connected, actionable data and true Azalea Health integration

RevUp leverages built-in Azalea Health workflows that allow practices to enroll and monitor their remote or chronic care patients efficiently without having to learn new systems.

Automated Claim Generation

Key to achieving a program that is efficient, effective and sustainable, is creating a seamless, intuitive user experience for the patient and provider, and that's what our integration with Azalea Health accomplishes.

Michael Moore, VP of Product

く く く

Azalea Health users have access to the uniquely comprehensive features of RevUp's remote care programs:

- Telephonic patient enrollment
- Dedicated team of health coaches
- Cellular connected devices with real time vitals data
- Automatic claims creation

RevUp allows programs to get off the ground seamlessly with faster reimbursements – all while living in the Azalea Health environment.

Revup + Azalea

Integrated Ordering and Enrollment

Through the fully-integrated RevUp platform, the MD Revolution team enrolls qualified Medicare patients for the practice, prompted by enrollment flags and trigger ordering by service. Practices can see enrollment status real-time in the existing clinical workflow, and patients begin receiving CCM and RPM services in less than 5 days.
