

**Connected, actionable data and true Elation Health integration**

RevUp leverages built-in Elation workflows that allow practices to enroll and monitor their remote or chronic care patients efficiently without having to learn new systems.

Bidirectional Enrollment by Services	✓
Exchange of Health History	✓
Integrated Discrete Vitals	✓
Escalation Tasks	✓
Compliance Documentation/Integrated Care Summary	✓
Automated Claim Generation	✓

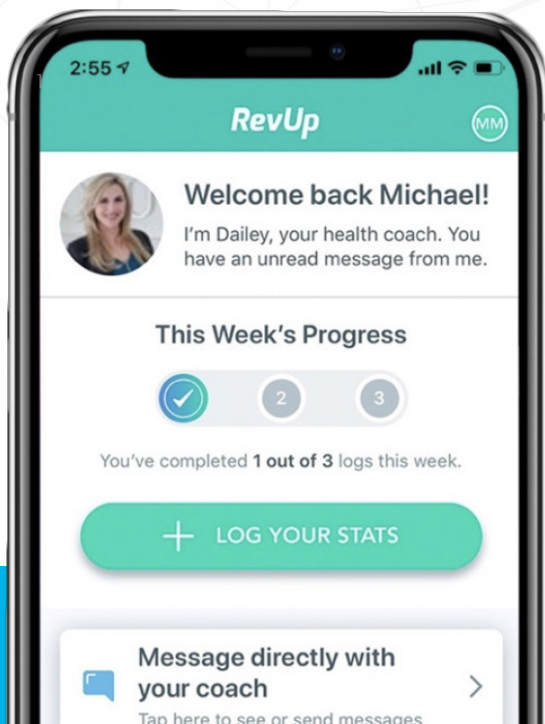

Key to achieving a program that is efficient, effective and sustainable, is creating a seamless, intuitive user experience for the patient and provider, and that's what our integration with Elation accomplishes.

Michael Moore, VP of Product

Elation Health users have access to the uniquely comprehensive features of RevUp's remote care programs:

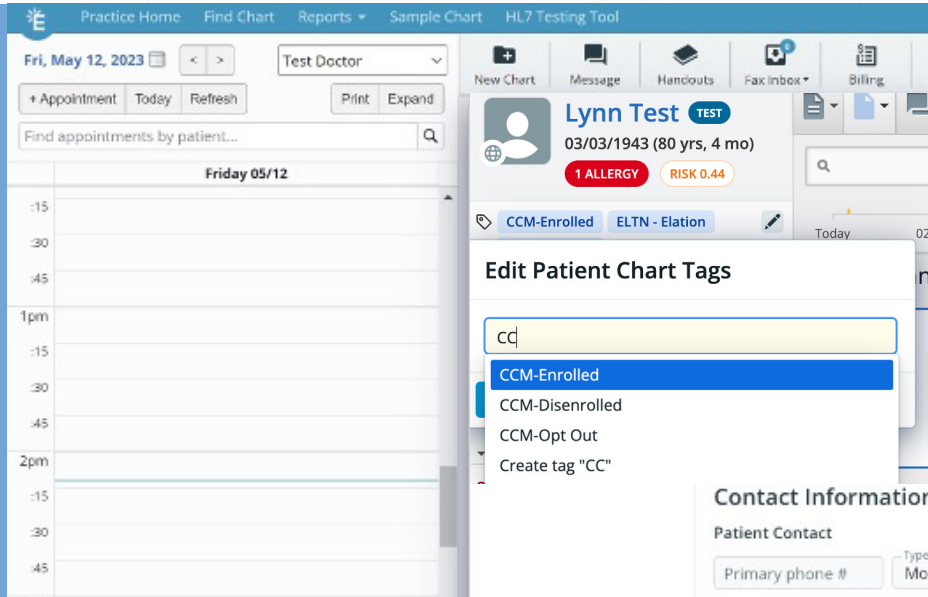

- Telephonic Patient Enrollment
- Dedicated Team of Health Coaches
- Cellular Connected Devices
- Automatic Claims Creation

RevUp allows programs to get off the ground seamlessly with faster reimbursements – all while living in the Elation Health environment.

## Integrated Ordering and Enrollment

Through the fully-integrated RevUp platform, the MD Revolution team enrolls qualified Medicare patients for the practice, prompted by enrollment flags and trigger ordering by service. Practices can see enrollment status realtime in the existing clinical workflow, and patients begin receiving CCM and RPM services in less than 5 days.

## Integrated Documents and Claims

RevUp is the only care management app integrated with Elation Health providing automated claims creation via the RevUp billing engine, eliminating the manual claim creation step for each patient, every month.
